

Collecting Folk Music In Australia: Report Of A Forum Held At The University Of New South Wales, 4-6

Draft affordable housing policy — Inner West Council

We provide these comments in response to the Council's draft *Affordable housing policy* (November 2016) on public exhibition.

The draft Policy proposes a number of measures to deliver more affordable housing through statutory planning mechanisms. There would be 3 statutory planning mechanisms used:

- requiring a designated mix of bedroom sizes in new apartment buildings with 10 or more units;
- accepting developers' voluntary offers of money for affordable units in planning agreements (under section 93F of the *Environmental Planning and Assessment Act*) negotiated in tandem with a planning proposal that would increase the value of the land, calculated as 10-34 percent of the additional floor area in the case of minor changes, and as 0-24 percent (depending on suburb and size of the development) of the gross floor area in the case of major developments; and
- requiring contributions of affordable-housing units or money for affordable housing (under section 94F of the *Environmental Planning and Assessment Act*).

We also note that the Council resolution of 6 December 2016, which endorsed the draft policy and an associated position paper and decided to exhibit them before adoption of a final policy, adopted some policy positions for the Council on matters related to the draft policy. Three of those are of particular interest to us. Those 3 are:

- The Council decided to seek appropriate amendment to *State Environmental Planning Policy 70 (Affordable Housing)* with a view to having the Inner West Council area identified as an area with a need for affordable housing.
- The Council decided that in its proposed scheme for mandatory contributions under section 94F of the *EP&A Act*, the Council would require a contribution calculated at 15 percent of gross floor area of the development for developments with a gross floor area of 1,700 square meters or greater.
- The Council committed to a target of 30 percent of all residential development on government-owned land in the Bays Precinct to be affordable housing and committed itself to undertake a fully-funded planning study to identify financially viable models to achieve this target.
