## **First International Conference Against US/NATO Military Bases**

**November 16-18, 2018, Dublin, Ireland**

The increasingly aggressive actions of US/NATO forces, the raging wars in the Middle East, the burgeoning arms race devastating the national treasuries, the bellicose language replacing diplomatic negotiations, the economic crises facing country after country, the destruction of the global environment through war and unfettered exploitation, their impact on public health, have created crises that, unless checked by popular opposition, can lead to unimaginable catastrophe and war.

None of us can stop this madness alone. Global peace forces must come together, mobilizing the millions in our countries, and around the world, for peace. Based on this understanding, we have initiated the Global Campaign Against US/NATO Military Bases.
